we are active fusion

Active Fusion have been mentoring teachers in schools for over 20 years. As a result of this support, we have seen a significant increase in the confidence and knowledge of teachers to deliver physical education (PE) to children. However, we know there are many emerging teachers and professionals working in schools that require support to consistently deliver high quality practice that meet the needs of children in our schools today.

We are dedicated to building trusted relationships with the children, young people, and families across our local communities. As part of our partnership approach, we are committed to ensuring that everyone we encounter receives a personal and rewarding journey with Active Fusion.

As a charity, we exist to make a difference to the lives of thousands of children most in need of our support every year. Together, we can help make a difference to the lives of your children at the heart of your school.

Stephen has provided structured tasks that I can take into other lessons. Demonstrated how to communicate lesson intentions and assist children to self- evaluate.

Barnby Dun Primary School

how can we support?

Our bespoke school offer supports educational professionals to make sustainable changes in implementing high quality PE provision across the whole school.

'I do, We do, You Do'

- Prior to sessions an Active Fusion coach and class teacher meet to make a development plan together, identifying areas that class teacher would like to focus on.
- Lessons 1 and 2 - The Active Fusion coach delivers the lesson with the Class Teachers observing.
- Lessons 3, 4, and 5 - The Active Fusion coach and class teacher deliver the session together. The class teacher starts to leader parts of the lesson (e.g. Warm Up, Skill Activity and Progression Activity sections).
- Lesson 6 – The class teacher will lead and deliver the whole session with the Active Coach observing.
- On completing the sessions, the Active Fusion Coach will provide feedback, reviewing the outcome against the original development plan.

Harry has demonstrated clear planning in his lessons and is easy to talk to when describing what he is doing in his sessions. He has helped me to teach a variety of athletics and incorporate different skills.

Crookesbroom Primary Academy

What you will receive

Working alongside one of our specialist coaches, Active Fusion will support teachers to improve their confidence, competence and knowledge in delivering high quality PE within your school.

Sessions will focus on upskilling your knowledge in:

- Supporting all ability groups to achieve learning and success through differentiation.
- Demonstrate progression of skills within a single lesson and through a series of lessons.
- Using different assessment methods in PE to support knowledge retention.
- How to effectively use questioning within your lessons.
- How to plan and deliver an engaging PE lesson.

What will the impact be on your school?

- Increased confidence and knowledge in delivering PE across all areas of the curriculum.
- High Quality PE imbedded across your school.
- Support for holistic development of all children.
- Increase in knowledge, skills and confidence in PE for children.
- In school PE Coordinator support in areas such as Assessment, Schemes of Work, Lesson Planning and QA processes.

I like to take part because it makes me feel stronger and then I feel more confident in front of my class mates on the playground when doing and playing other sports.

Pupil from Long Toft Primary School

our partnerships

Active Fusion have three partnership levels of support:

gold silver bronze

Where others may charge for extras such as PE coordinator support and advice, playground leaders, major events and PE conferences, all of these elements are already included in every partnership level, with no hidden costs!

Our coach becomes your coach and how they support your school is entirely up to you. The Fusion Family team are dedicated to helping you explore Whole School Improvement in PE!

I feel that PE is a strength of our school, but without the support of Active Fusion it wouldn't be.

Crookesbroom Primary Academy
