

# Dawid's Story

**Active Fusion helped Dawid find his passion in physical activity and pursue employability with the charity.**

*Since Dawid has joined the team, he has grown so much and is more confident to grow and build relationships.*

**Adam Burgin - Dawid's Line Manager & Senior Sports Coach**

Dawid has been a long-standing, devoted member of our team and a great addition to our apprentice cohort across the number of years that he has been a part of our charity. Dawid is a highly dedicated individual who has proven himself to be a rising star.

Dawid is a Sports Education Coach who works in Carcroft Primary School, inspiring the next generation. Lauren Marsh, Class Teacher and PE Lead at Carcroft described Dawid as a “real asset to Carcroft School”. Lauren elaborated, “Dawid is a very motivating and encouraging individual with great management.” As a charity, we’re constantly hearing praise and positive feedback regarding Dawid’s work ethic, approachability and professionalism.

As Dawid has climbed the ranks with Active Fusion, his progress has soared alongside the charity. Our team have had the pleasure of watching Dawid grow and develop both personally and professionally. We couldn’t be happier with all Dawid has achieved, such as being awarded a ‘Distinction’ on his Level 3 Community, Health, Sport Officer in February of 2023.

Now, Dawid is an employed member of staff at Active Fusion after 4 years of volunteering and training. Dawid continues to strive towards development and consistently welcomes feedback on his performance. So much so, that Dawid “provides good feedback to the children to allow them to progress” too. The children at Carcroft adore Dawid and have learnt plenty from him and his experience in the industry.

As an apprenticeship provider, we strive to help each learner to be the best they can be – Dawid goes above and beyond this! He is passionate about the charity and always eager to learn. We strongly believe that Dawid has a real talent and know that he has taken the correct path to further his career aspirations.

Dawid’s Line Manager, Adam Burgin, commented “Since Dawid has joined the team, he has grown so much. He transitions from Primary into Secondary delivery seamlessly and is more confident to grow and build relationships.” Adam will continue to push Dawid in the right direction ensuring he gets the most out of his learning as Dawid shows a desire to move onto Active Fusion’s Level 4 Sports Coach qualification. To do this, Dawid will partner with schools supporting them in delivering high-quality PE and exploring physical activity across the curriculum.

Active Fusion feels that Dawid’s success story should be shared! We know that Dawid will excel in the field of sports and education after finding success in growing as an apprentice. From overcoming obstacles to a breakthrough in confidence, we’re certain that Dawid has become a strong leader and will continue to positively impact the lives of multiple children and young people.

**Our team work with DN College Group, providing high quality one to one and group based tutoring, developing the next generation of professionals for physical education sector.**

There has been nothing but success that has come from Dawid’s apprenticeship and many schools, such as Carcroft have said “We have loved having Dawid as our PE coach”. We hope Dawid will go on to do more great things!
