Our Impact

Making a difference

By joining hands with us, you're not just contributing to a fundraiser; you're becoming a part of something greater – a movement fuelled by the shared belief that together, we can transform young lives.

Active Fusion is on a mission to create healthy and active lives for young people. Too many children and young people, specifically those living in poverty, are suffering from poor physical health and mental well-being. Research suggests these young people are likely to live **10 years** less than their more affluent peers. We want to change this by giving all young people the best start in life through using sport and physical activity as a force for good.

We need your help. Every single penny counts in our pursuit of creating lasting change and impact for those children and young people who need us the most.

I really like Fusion Camp; we get to go outside, play and make friends. It made me feel happier than ever because it was such a great time. I want to come back because I love this place so much!

Our Impact

Last year, we had a positive impact on the lives of **23,000** young people.

By collaborating with our partners, we strive to impact on more young lives, especially those that society has left behind. Our ambition is to double our impact by 2025 by reaching over **50,000** children and young people annually.

By joining the Fusion Performance Club, you will play a crucial role in supporting us to achieve this vision and make a significant difference in the lives of children and young people within our community.
